# **HOT SHOT TRANSPORT**

**REINFORCED  
LOGISTICS™**

**PARTNER WITH A LEADER**

# PROFESSIONALS YOU CAN TRUST

## Hot Shot vs LTL:

### Dedicated Load:

Hot shot trucks do not typically move from dock to dock because they are usually dedicated to a single customer or location.

This not only reduces the chance of damage, but also offers a cost-effective solution for smaller, less-than-truckload (LTL) shipments.

### Flexibility and Accessibility:

Our hot shot drivers are experts at maneuvering through urban areas, tight spaces, and locations with restricted access where larger trucks may struggle.

### Urgent Deliveries:

Hot shot transport is ideal for time-sensitive deliveries that need to be transported efficiently and within tight deadlines.

Our expert drivers are highly experienced and skilled in properly securing tarps and loads, **ensuring the safety and integrity of your cargo throughout the journey.**

### Specialized Equipment:

Ideal for transporting specialized equipment or materials that need careful handling and prompt delivery.

There has never been a time like this. And there has never been a partner like Reinforced Logistics.

We Are **Relentless.**

We Are **Problem-Solvers.**

We Are **Different.**

We Are **Passionate.**

We Are **Up to the Challenge. And...**

**WE NEVER LOSE OUR  
DRIVE TO DELIVER.**
